Treatment Group

-
- A box plot comparing the number of extra hours of sleep between two treatment groups. The y-axis ranges from -1 to 5. Treatment Group 1 (red) has a median of approximately 0.4, an IQR from 0 to 1.6, and whiskers from -1.5 to 3.7. Treatment Group 2 (cyan) has a median of approximately 1.8, an IQR from 1.5 to 4.1, and whiskers from -0.2 to 5.4. Individual data points are overlaid on the boxes.
